SECOND SWEDISH DIABETES SUMMIT
November 21-22, 2017 | Gothenburg, Sweden

BACKGROUND
Swedish diabetes research is world class, but lacks a national forum for developing research, infrastructure, treatment and care. This 2nd summit brings together basic and clinical researchers in academia and industry and offers cutting edge research and ample opportunities for informal interactions and discussions.

TIME AND PLACE
21st-22nd November 2017
Wallenberg Conference Center,
Medicinaregatan 20, 413 90 Gothenburg

WHO CAN ATTEND
This arrangement is targeted to basic and clinical diabetes researchers, researchers from industry, clinically active medical doctors/health care personnel and patient organization representatives.
