2. Letter of Recommendation (Max 500 words)

The prize is awarded for scientific excellence in the general area of diabetes research, which benefits patients with any type of diabetes. This means that excellent basic, clinical and translational research qualify for the prize. The candidate must be 45 years or younger on December 31 of the year of the nomination. Confirmed parental leave adds one year/child to the age limit. The candidate must be active and based in the Nordic countries, i.e., Sweden, Denmark, Finland, Norway and Iceland. Postdoctoral work outside of the Nordic countries may be part of the assessment.

The awardee is required to give a plenary prize lecture at the Diabetes Research Day at Lund University, typically held the 1st or 2nd week of February.
